

Energy ICM™ Specifications

ecoConcierge

The Energy ICM™ connects to Honeywell thermostats and allows home and business owners to control the thermostat and implement energy-saving strategies. Users can do this from any computer or mobile device inside the home or business, or from any Internet connection around the world.

The Energy ICM™ conserves energy by making home and business owners aware of their energy usage, and by providing tips to manage energy consumption in their homes and businesses.

 ENERGY CONSUMPTION			
ecoConcierge	DAY	WEEK	MONTH
YOUR HOME	\$ 655	\$ 42	\$ 147
CARBON FOOTPRINT REDUCTION	40 lbs.	297 lbs.	875 lbs.
AVERAGE HOME IN COMMUNITY	\$ 720	\$ 47	\$ 159
AVERAGE AUSTIN HOME	\$ 900	\$ 60	\$ 200
